## Laboratory Readiness Assignment: General Safety

To familiarize yourself with the safety equipment and potential hazards in your own laboratory, use the following space below to draw a diagram the lab space, indicating the following:

- |                               |                              |
|-------------------------------|------------------------------|
| A. Fire extinguisher          | H. Face shields              |
| B. Safety shower              | I. Gloves                    |
| C. Eye wash station           | J. Safety glasses            |
| D. First aid kit              | K. Lab coats                 |
| E. Chemical storage area      | L. Spill kit                 |
| F. Hazardous waste receptacle | M. Safety Data Sheets (SDSs) |
| G. Glass waste receptacle     | N. All exits                 |
